ABOUT US

LOMBARDY PIPES

MANUFACTURED WITH

**PREMIUM-GRADE
RAW MATERIALS**

WHO

WE ARE - LOMBARDY

LOMBARDY PIPES is one of the largest producers of PVC, PP-R and HDPE Pipes in Nigeria. Our multicultural team of Piping experts works rigorously to meet the ever-changing needs of the market and to exceed the expectations of our clients. Our clients come to us as we deliver only the best, we have earned this reputation solely because of the dedication our team puts into every project and order.

WHY

OUR COMPANY'S
VISION & GOALS

Lombardy Pipes provides the markets of Nigeria and Africa with a comprehensive range of PP-R, PVC, and HDPE Pipes. We maintain international standards to provide the highest quality products; by performing stringent quality tests at our in-house laboratory.

As Nigeria's leading manufacturer of PVC, HDPE, and PP-R pressure pipes we take advantage of our local production capabilities and our human resources. Our goal is to improve the quality of life with products that are both durable and reliable. Adopting the latest advancements in cutting-edge technologies increases our efficiency and enables us to offer our products at affordable prices.

WHAT

OUR PRODUCTS &
SERVICES

OUR STORY

Back in 1976, Lombardy Pipes was formed with a vision to provide water to as many homes and people as it could in Nigeria. The company commenced operations with humble beginnings, precisely with one Cincinnati machine and aligned all efforts towards this vision. We started producing pressure pipes that were of exceptional quality and offered these at affordable prices and gradually grew our business from there. Today we serve the water, energy and power distribution Industries and many more.

WHERE

YOU CAN FIND US

Lombardy supplies its products internationally and all across Nigeria, today. We receive our primary business from East Lagos and Abuja. Our Factory is located in Ota which has the third largest concentration of industries in Nigeria. Being situated in a favorable location translates into greater efficiency during all logistics processes.

OUR FACTORY

LOMBARDY supplies its products internationally and all across Nigeria.

Our factory is located in Sango Ota, Ogun State which has the third largest group of industries in Nigeria.

Being situated in a favourable location translates to greater efficiency during all logistics processes, both internal and external.

PVC PIPES

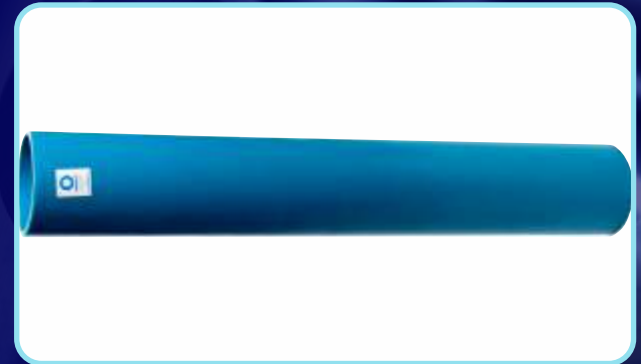

Polyvinyl Chloride Pipes

PVC PRESSURE PIPES

Lombardy PVC Pipes are made from 100% virgin material meant for Water Pressure in different classes of pressure. In Nigeria, these pipes are primarily used in water supply, irrigation and sewage rising mains.

Their high strength to weight ratio together with exceptional resistance to corrosion or chemical attack makes these pipes ideal for vital infrastructure applications. Lombardy pipes manufacture a wide range of these pipes to conform to various pressure ratings and overall thickness.

UPVC PIPE SPECIFICATION

ISO 4422-2

Outside Diameter	Nominal Wall Thickness (mm) for pressure pipes		
	CLASS 3 (6 BAR)	CLASS 4 (10 BAR)	CLASS 5 (16 BAR)
20	-		-
25	-		1.9
32	-	1.6	2.4
40	-	1.9	3.0
50	-	2.4	3.7
63	1.9	3.0	4.7
75	2.2	3.6	5.6
90	-	4.3	6.7
110	2.7	4.2	6.6
125	-	4.8	-
140	3.5	5.4	-

160MM-400MM	Self-fit Socket and Rubber Ring Joint		
LENGTH	Standard 6m or as per requirements		
COLOR	Grey Blue		

APPLICATIONS

Lombardy PVC pipes are used with confidence in the following industries.

AGRICULTURE

WATER & DRAINAGE

MINING & INDUSTRY

PLUMBING

GAS

ELECTRICAL & COMMUNICATIONS

HDPE PIPES

High-Density Polyethylene Pipes

HDPE PRESSURE & NON-PRESSURE PIPES

HDPE Pipes offer resistance to slow and rapid crack propagation, increased hydrostatic pressure resistance and performance at elevated temperatures, broadening their range of applications. LOMBARDY produces a world-class range of HDPE Pipes and is the leading manufacturer of these pipes in Nigeria.

High-Density Polyethylene (HDPE) is a durable, robust, flexible, and lightweight material which makes it an optimal piping solution. The fusion of HDPE pipes results in a ZERO-LEAK rate owing to its seamless properties.

ECO-FRIENDLY

From an environmental standpoint, HDPE Pipe is inert and will not readily react with other chemicals. Furthermore, the production of HDPE is far less destructive to the environment than the manufacture of different types of piping materials.

APPLICATIONS

Lombardy High-Density Polyethylene pressure pipes
are used with confidence in the following areas...

**AGRICULTURE AND
IRRIGATION**

WATER SUPPLY

INDUSTRIAL USAGE

DUCTING

BUILDINGS

DRAINAGE PIPES

PP-R PIPES

Polypropylene Random Copolymer Pipes

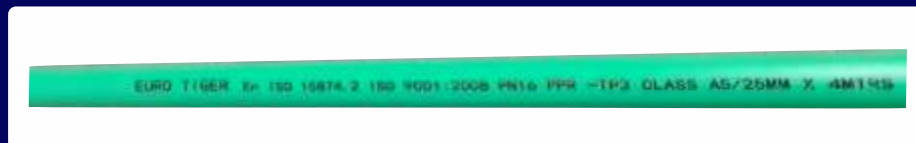

PP-R POLYPROPYLENE RANDOM PIPES

LOMBARDY Pipes produces the most extensive range of PP-R pipes using the finest grade of Polypropylene Random Copolymers. These pipes are used for hot and cold water supply and industrial pipelines. Polypropylene pipes, in comparison to steel pipes have a much smoother inner surface and possesses minor thermal conduction. As a result, PP-R pipes exhibit less pressure and heat loss.

PP-R pipes have a very smooth inner wall, hence, they offer little resistance to the flow of fluid or water. PP-R pipes come in two variants: **EURO TIGER (PREMIUM)** and **TURKEY STANDARD (REGULAR)**.

EURO TIGER (PREMIUM)

TURKEY STANDARD

PP-R PIPE SPECIFICATION

DIN8077/8078

SR NO	PIPE SIZE IN MM	10 BAR WALL THICKNESS	12.5 BAR WALL THICKNESS	16 BAR WALL THICKNESS	20 BAR WALL THICKNESS
1	20	-	2.3	2.8	3.4
2	25	-	2.8	3.5	4.2
3	32	-	3.6	4.4	5.4
4	40	-	4.5	5.5	-
5	50	4.6	5.6	6.9	-
6	63	5.8	7.1	8.7	-
7	75	6.9	8.4	-	-
8	90	8.2	-	-	-
9	110	10.0	12.3	15.1	-
